

# Great Value for Member Benefits

These benefits have thousands of dollars of value

## PRACTICE DEVELOPMENT

### Sample Contracts

We provide samples of work agreement contracts outlining parameters of length of contract, percentage or flat fee, renegotiations, charting, file ownership, photocopies, medical reports, and giving notice/dismal, etc.

### Clinical Medical Forms

If you need clinic forms, you can print off and use these RMTBC documents. They are PDFs so they cannot be changed but you can put a stamp on them or use the format to help design your own.

### Continuing Education

We hosted the Third International Fascia and Pain BC conferences. We gathered some of the best teachers in the world: Stecco and Vizniak; for example.

### Research

Members have access to a diverse range of subjects, including access to online journal articles, research grants for on-going projects and support, a research blog, student case study awards, and an electronic health research library.

### RMT Matters Canada Magazine

Three times a year, members receive the association's national magazine featuring articles that serve both the RMT and the general public. RMT Matters Canada is also a great resource for clinic supplies and CEC courses

### Practice Assistance

We provide members with answers to your billing questions, assistance in setting up your practice, and trouble shooting issues.

### Professional Practice Groups (PPGs)

RTMBC is providing an opportunity for members who are interested in specific areas of clinical practice. Through research supported by the association, Professional Practice Groups (PPGs) will build on that collective knowledge base and grow a body of best practice to be shared within the profession. Currently we have PPGs for First Nations, Pain, Sport, Gerontology, Lymphatic Health, Mental Health and Women's Health. If members are interested, and willing to meet a higher RMT standard, they can join one of these groups.
